SUPPLEMENT TO
REPORT NO. 25X1X

1. The HV Funkwesen (Main Administration Wireless Communications) of the Ministry for Post and Telecommunications is being dissolved. Plans, so far still confidential, call for the abolition of this HV and its replacement by a new HV RFT. The new HV will allegedly be placed under the Ministry for General Machine Construction.
2. According to these as yet unconfirmed plans, the plants now under the direct supervision of the Ministry for Post and Telecommunications and HV Funkwesen will be affiliated with HV RFT. Funkwerk Koepenick will be re-affiliated, on this occasion, with RFT and placed under the supervision of the new HV. Another step under consideration is the Dissolution of VEB Funkanlagen founded recently and reassignment of its personnel to Funkwerk Koepenick. The reason for this measure is that VEB Funkanlagen in the short time of its existence proved to be too expensive and inefficient.

For information on the founding of VEB Funkanlagen see
